

Celebrating the Joy of Balloons While Encouraging Responsible Use: Coalition for Responsible Celebration Takes Stand Against Balloon Releases

27 July 2023

Woodcliff Lake, New Jersey - Balloons bring joy to millions of people around the world, and as a responsible organization, The Coalition for Responsible Celebration is taking a stand against balloon releases and promoting responsible balloon use.

The organization recognizes the importance of balloons in celebrations, events, and personal expression, but also understands that balloons need to be handled responsibly.

"We celebrate the joy that balloons bring to people's lives, but we also want to promote responsible balloon use and protect the environment," said Suteesh Chumber, Executive Director of CRC. "We believe that we can have both, and that by working together, we can create a more sustainable future for all."

The CRC encourages consumers to dispose of balloons properly after use and to avoid releasing them into the environment. The organization offers resources and educational materials to help consumers make informed decisions about their balloon use.

"We believe that everyone can make a positive impact on the environment, and that starts with responsible balloon use," added Suteesh. "By choosing to dispose of balloons properly, we can ensure that they bring joy without harming the environment."

The CRC is committed to creating a more sustainable future through responsible consumer behavior and education. To learn more about the organization and its mission, visit www.CoalitionForResponsibleCelebration.org.
